

12-12-06

To Jerome Donelly,

Mr. Donelly I received the notice of Non Compliant Amendment letter on or about November 20th 2006. The letter stated that the mailing date was 11-9-06 a Thursday. The postmark on the envelope says 11-13-06. 5 days later. I did not scrutinize the letter on the 20th as I was going out of town and figured I had plenty of time to respond. I have included a photocopy of the envelope showing the actual mail date, 11-13-06. As a Stand Alone Inventor, I am trying the best that I can to comply with the rules and regulations. Please understand this. I've done the best I can on this amendment. I've been chasing this patent now for almost four years. Please don't let this error in mailing jeopardize things. Please feel free to contact me.

A handwritten signature in black ink that reads "Alan Jay Monda".

Sincerely,

Alan Jay Monda - Inventor
